# SCOPE OF CALIBRATION

## Thermal Calibration

✓ Temperature Range: -196°C to +1200°C

✓ Temperature Range: -196°C to +1200°C

- Furnaces & Muffle Furnaces
- Deep Freezers, Liquid Nitrogen Storage
- BOD/COD/Incubators/Hot Air Ovens
- Autoclaves, Water Baths, Chillers
- Humidity Chambers, Stability Chambers, Climatic Chambers
- Dry Block Calibrators, Temperature Controllers
- RTD/PT-100, Thermocouples, Sensors, Indicators, Data Loggers

## Mechanical Calibration

✓ Weights & Mass: 1 mg to 20 Kg

✓ Balance Range: 0.1 mg to 150 Kg

✓ Volume: 10 µL to 5 Ltr

✓ RPM Measurement: 10 RPM to 90,000 RPM

- Weighing Balances & Micropipettes
- Pressure Gauges, Vacuum Gauges, Manometric Gauges
- Sound Level Meter Calibration
- Stopwatches, Timers, Tachometers
- Hydrometers, Viscometers (on request)

## ELECTRO-TECHNICAL Calibration

- Voltage, Current, Frequency, Resistance
- Time Interval & Oscilloscope check
- Electro-Medical Equipments (on Request)
- Multimeters, Clamp Meters, Power Meters
- Temp./Humidity Indicator with Sensors

## WHY CHOOSE NEXGEN?

- Trusted Meshindia Group Company
- End-to-End Calibration & Validation Support
- Fast Turnaround With On-Site Capability
- ISO/Audit Compliant Documentation
- Affordable – Lab + Pharma Focused Pricing
